

Dear members and friends of the American Academy of Allergy, Asthma & Immunology,

This is Mary Beth Fasano, current President of the Academy. Thanks for listening in today to my brief video chat. I wanted to make sure that you all had access to resources that you might need to help to manage the stressors and uncertainties associated with the COVID-19 pandemic. Did you know that on the Academy website, you can actually access a Physician Wellness Toolkit (<https://www.aaaai.org/practice-resources/running-your-practice/practice-management-resources/wellness>)? Check it out. It has some great links and resources for maintaining physician wellness, resilience, getting connected, lifestyle, etc.

Also, were you aware that the American Board of Allergy and Immunology has also extended its requirements for all components of their Maintenance of Certification program? So for those of you that are participating in the ABAI MOC program, as it relates to CME credits that might have been due in 2020, those have been extended to December 31, 2021. They've also extended the deadline for the CAP (Continuous Assessment Program) block one until January 15 of 2021. They've cancelled block two of the CAP program.

Now, speaking also of CME requirements, some state medical boards are now extending their requirements for CME and other licensure requirements because of this public health emergency. Each state is different, so please be sure to go to your state medical board site to find out what, if anything, they are doing with respect to your licensure status.

You know our Academy Annual Meeting scheduled for Philadelphia in March was cancelled. However, I wanted to let you know that as of April 2, our Virtual Poster Hall was posted on the Academy website (<https://education.aaaai.org/aaaai-virtual-poster-hall>). Also be aware that our education team and our Annual Meeting Programming Committee are aggressively working to put together a Virtual Annual Meeting that will provide great learning resources as well as those CME credits.

In closing, I encourage all of you to continue to send any questions or concerns to our COVID-19 Response Taskforce at [practicematters@aaaai.org](mailto:practicematters@aaaai.org) and also check out the Academy's Physician Wellness Toolkit. Thanks a bunch, and take care.
