

## Telemedicine in the era of COVID-19

Jay M Portnoy, MD  
Medical Director of Telemedicine  
Children's Mercy Hospital  
Kansas City, MO

## What are we doing?

- In-person allergy clinics have all been cancelled!!!
- No new allergy shots started!
  - Frequency of established allergy shot patients are being reduced as much as possible.
- Biologics converted to home administration as much as possible
- Facilitated telemed visits continue for now- mostly in remote communities
- Appointments are being converted to video or telephone visits or they are being postponed for several months
- New appointments (new or established) only being offered as virtual visits.
  - No in-person visits are being scheduled.

## Telephone encounters

- Is supposed to be patient initiate
  - With Teams, the patient logs in to the conference
- Assessment is not from a service provided within the previous 7 days
- assessment will not lead to a service with the next 24 hours or soonest available appointment.
- Duration of medical discussion is documented by Physician or APRN:
  - 99441= 5-10 minutes
  - 99442= 11-20 minutes
  - 99443= 21-30 minutes

## Recent Changes

- As of March 6, 2020, Medicare will pay to treat COVID-19 (and for other medically reasonable purposes) using telemedicine services
- Relaxation of HIPAA regulations to permit providers to use their personal devices to see patients.
- To get COVID-19 tests to the public more quickly, the U.S. Food and Drug Administration has waived the normal regulation

## Medicare Telehealth Frequently Asked Questions March 17, 2020

- The requirement that a physician and patient have an established relationship has been waived by CMS, therefore, physicians can treat either New or Established patients via telehealth or telephone and are billable.

<https://www.cms.gov/files/document/medicare-telehealth-frequently-asked-questions-faqs-31720.pdf>

## DOCUMENTATION REQUIREMENTS

- Assessment and plan, including clinical assessment of the complexity of patient's condition, as well as plan of treatment.
  - This must be included and wouldn't be compromised by the telehealth setting.
  - If additional workup is required this should be noted as well.
- Provider should document the total time spent rendering this service as well as the mode of telehealth (Audio or Video), and the location of both provider and patient.

<https://www.cms.gov/files/document/medicare-telehealth-frequently-asked-questions-faqs-31720.pdf>

## DOCUMENTATION REQUIREMENTS

- Providers should document the encounter as they would a normal, in-person office visit.
- History to Include CC, HPI, ROS, and PFSH as these are all subjective and obtainable.
- Exams will be limited, but consider what is appropriate and medically necessary.
  - For example, 1 organ system examined might include a brief statement regarding the patient's appearance.

<https://www.cms.gov/files/document/medicare-telehealth-frequently-asked-questions-faqs-31720.pdf>

## DOCUMENTATION SCENARIOS

- This is a Telehealth visit via telephone audio and or telephone. The patient was located at their home and I am located...
- This is a Telehealth visit for a new patient from patient's home via video while I am located...
- Time spent in medical discussion with patient from their home via telephone audio only was 22 minutes from 9:00 AM to 9:22 AM.

<https://www.cms.gov/files/document/medicare-telehealth-frequently-asked-questions-faqs-31720.pdf>

## Example

- **Present for Televisit**
- Patient/Family: Parent/Guardian only
- Providers/Team Members: \_
- 
- **Visit Details**
- Consent for visit to be conducted by Telehealth: Electronic Consent sent to family/patient
- Consent for treatment: Verbal consent from parent/guardian
- Modality: Audio-Visual
- Patient/Family Physical Location: Personal residence in state of MO
- Provider Physical Location: Personal residence in state of MO
- 
- **Time Attestation**
- Time call/video started: \_
- Time call/video ended: \_
- Total time: \_ minutes
- (note: Teams automatically stamps the start time, stop time and elapsed time)

## Exam (12 systems) by TM

- **Exam:**
- **Vital signs:** Weight-                      Resp Rate-
- **General:** No apparent distress. Awake, alert, well-appearing.
- **HEENT:** Normocephalic and atraumatic. Mucous membranes are moist. No periorbital edema. Facial muscles move symmetrically.
- **Neck:** Neck is symmetrical with trachea midline.
- **Eyes:** Conjunctiva and eyelids normal bilaterally. Pupils equal and round bilaterally.
- **Respiratory:** breathing unlabored, no tachypnea.
- **Cardiovascular:** No edema, no pallor, no cyanosis.
- **Abdomen:** Non-distended.
- **Skin:** No concerning rash or lesions observed on exposed skin.
- **Extremities:** Normal range of motion observed. No peripheral edema.
- **Neuro:** Mood and behavior appropriate for age.
- **Musculoskeletal:** Symmetric and appropriate movements of extremities.

  
**FEDERATION OF STATE MEDICAL BOARDS**  
**States Waiving Licensure Requirements/Renewals in Response to COVID-19**  
**March 31, 2020**

State	Note	Citation
Alabama	The Alabama Board of Medical Examiners and the Medical Licensure Commission have adopted emergency administrative rules and procedures allowing for the emergency licensing of qualified medical personnel. These measures will allow physicians and physician assistants who possess full and unrestricted medical licenses from appropriate medical licensing agencies to apply for and receive temporary emergency licenses to practice in Alabama for the duration of the declared COVID-19 health emergency.  No changes related to licensing or renewals.*	<a href="#">ALBM Press Release</a> <a href="#">Board of Med Guidance</a> <a href="#">Temporary Emergency License Requirements</a> <a href="#">State Resource Page</a>
Alaska*	A pending bill in the Legislature, SB 241, says, in part, "... Notwithstanding any other provision of law, during the public health disaster emergency declared by the governor... a professional or occupational licensing board... may grant a license, permit, or certificate on an expedited basis to an individual who holds a corresponding license, permit, or certificate in good standing in another jurisdiction to the extent necessary to respond to the public health disaster emergency. A license expeditied under this section expires on the earlier of September 1, 2020; or the date the governor determines... that the public health disaster emergency no longer exists..."  * For as long as the Secretary's designation of a public health emergency remains in effect, DEA-registered practitioners may issue prescriptions for controlled substances to patients for whom they have not conducted an in-person medical evaluation, provided all of the following conditions are met: 1) The prescription is issued for a legitimate medical purpose by a practitioner acting in the usual course of his/her professional practice 2) Is conducted using an audio-visual, real time, two-way interactive communication system. 3) The practitioner is acting in accordance with applicable federal and state law	<a href="#">Emergency Declaration</a>  <a href="#">AK SB 241</a>  <a href="#">Guidance re: Telemedicine</a>  <a href="#">State Resource Page</a>
Arizona	Allows ADHS to waive licensing requirements to provide healthcare officials with assistance in delivering services during times of heightened demand. The Director of the Arizona Department of Health Services, pursuant to the Declaration of Emergency issued by the Governor... may establish... a process for the temporary waiver of the professional licensure requirements necessary for the implementation of any measure... establish requirements for registering providers with out-of-state licenses who will be permitted to provide services in Arizona with out-of-state licenses...  * A state agency or board that licenses individuals or entities as indicated herein shall: a) Defer requirements to renew licenses that have an expiration date between March 1, 2020 and September 1, 2020 by six months from the expiration date, unless those requirements can be completed online; b) Defer requirements to complete continuing education by six months, unless those requirements can be completed online or due to the nature of the license is not practical; c) Suspend any rules that prevent or limit the amount of online or alternative learning hours permitted to issue or renew a license...  No changes related to licensing or renewals.	<a href="#">Press Release</a>  <a href="#">Dept. of Health Services</a> <a href="#">Arizona Order</a>  <a href="#">Executive Order 2020-27 re: CME/Renewals</a>  <a href="#">State Resource Page</a>
Arkansas*	* In an effort to assist with the COVID-19 health crisis, the Arkansas State Medical Board voted to grant emergency temporary licenses to Arkansas medical residents who have completed at least one year of postgraduate training and have the written recommendation of their program director.	<a href="#">Emergency Temporary Application</a>  <a href="#">State Resource Page</a>
California	Any out-of-state personnel, including, but not limited to, medical personnel, entering California to assist in preparation for, responding to, mitigating the effects of, and recovering from COVID-19 shall be permitted to provide services in the same manner as prescribed in Government Code section 17915. The EMS Authority will only accept requests for out of state medical personnel approval from a California medical facility, telehealth agency contracted with a California medical facility or a staffing agency providing staff to California medical facilities, that intends to utilize those resources. * A medical facility, telehealth agency or staffing agency which desires to utilize medical professionals with out-of-state certifications or licenses during the COVID-19 State of	<a href="#">Emergency Declaration</a>    <a href="#">Temporary License Application</a>

## How to see a patient using Teams

- Contact the patient if an in-person visit needs to be rescheduled or
- For new patients offer them a video or telephone visit
- You need to get the patient's e-mail address
- Log into Teams and schedule a calendar appointment
  - Send an invite to the patient (using their e-mail address)
  - Send an invite to yourself (so that it goes on your calendar)
  - Send an invite to the nurse (if you want a nurse to be included for teaching)
  - Note: multipresence is easy with Teams
- In your invite ask the patient to confirm the visit.
  - You will receive a confirmation message

## Scheduling an appointment with Teams

## Scheduling an appointment

The image shows two parts: a screenshot of the Microsoft Teams 'New meeting' interface on the left, and a sample meeting invitation email on the right.

**Microsoft Teams 'New meeting' interface:**

- Subject: Allergy visit with Dr. Portnoy
- Attendees: jay.m.portnoy (Guest), jportnoy@cmh.ed (Optional)
- Time zone: (UTC-06:00) Central Time (US & Canada)
- Start time: Mar 18, 2020, 3:00 PM
- End time: Mar 18, 2020, 3:30 PM (30m)
- Recurrence: Does not repeat
- Body text: Please confirm this appointment when you receive this invitation. Log in at the indicated time. You might need to wait a few minutes but then the provider will join you. To be seen with video, click the Teams link. To be seen by telephone, call the number listed below and use the access code. Please have the patient available during the visit if possible.

**Meeting Invitation Email:**

Quick Steps: Accept, Tentative, Decline, Propose New Time, Calendar...

Portnoy, Jay MD | jay.m.portnoy; jportnoy@cmh.ed

**Allergy visit with Dr. Portnoy**

When: Wednesday, March 18, 2020 3:00 PM-3:30 PM | Location

Please confirm this appointment when you receive this invitation. Log in at the indicated time. You might need to wait a few minutes but then the provider will join you. To be seen with video, click the Teams link. To be seen by telephone, call the number listed below and use the access code. Please have the patient available during the visit if possible.

## Information to send to patient

- Title of invitation: (Patient initials0 AAI Video Conference- Dr. (provider name), eg: D.J. AAI Video Conference-Dr. Portnoy
- Add the following information to the body of the invitation:
  - Please accept this appointment when you receive it.
  - Please have the child present when the visit takes place.
- Below there are few steps to be taken prior to your appointment date/time that are essential
  - Download the TEAMS APP to your smart phone/computer <https://teams.microsoft.com/downloads>
  - Click the attachment in this email for the steps to follow once the app has been downloaded to your device.
  - Click on this pre-registration link provided, verifying the information on your account <https://www.childrensmc.org/PreRegistration/Home/Location/>
- At the time of the visit do the following:
  - For a video visit, click the Join Teams Meeting link. This is preferred.
  - For a telephone visit or if you are having difficulty with the video connection, call the indicated phone number and use the access code to connect.
  - Please keep in mind this is a virtual meeting room and you may need to wait for the provider just as you would in an in-person setting.
  - The attached pdf has suggestions for troubleshooting if you have difficulty connecting.

## Joining the Appointment

## Other Considerations

- The patient may initially be in a waiting room.
  - You will see that when you log in.
  - Click the link and they will be admitted to the conference.
- You can have your EMR open in another window if you have 2 monitors
- Alternatively, use Teams from an iPad and your EMR on your computer
- The nurse can stay on for teaching while you go to another call

## Inpatient Consults

- Many hospitals now have Telemed equipment- often rural
  - They are eager to provide specialty care to inpatients
- You would need to be able to log into the hospital's equipment.
  - This is often fairly easy depending on their platform.
- You need to have staff privileges in the hospital
- You must be licensed in the State where the hospital is located
- Arrangement for professional billing
  - The hospital would bill for the facility fee

## Our process (inpatient consults)

- We have an iPad on each inpatient unit
- The nurse on the unit connects to the consultant via Teams
- iPad is taken to the room where the consultant talks with the patient/parent
- Isolation rooms (ie: COVID-19 patients):
  - The iPad is placed in a zip-lock bag before being passed into the room
- If an exam is needed, the attending on the floor does it with the consultant observing

### Can Smart Thermometers Track the Spread of the Coronavirus?

A company that makes internet-connected thermometers has followed the flu more closely than the C.D.C. can. Now the devices may be turning up cases of Covid-19.

Kinsa Health has sold or given away more than a million smart thermometers to households. Tony Cenicola/The New York Times

We believe this latter data point – which we're calling "atypical illness", may in some cases be connected to the COVID-19 pandemic.

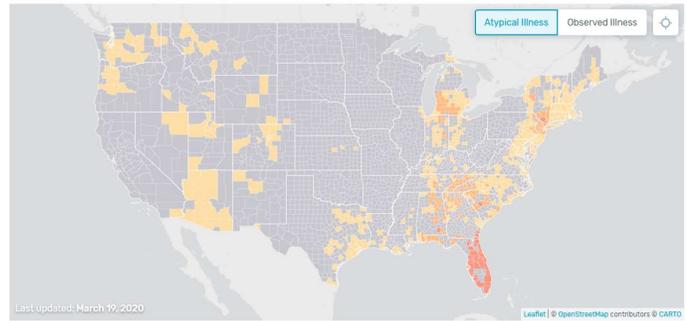

Created in collaboration with Benjamin D. Atlas, Oregon State University.
